**Course:** Located in the outskirts of the town Säter. The course is very compact and built up around a hill which the riders needs to pass several times and gives roughly 120 meter of climbing each lap. One lap is 5,0km with good possibilities to see the riders more than one time during a lap. Start and finish outside the race HQ. It's a mix of wider trails and single tracks, some of them are handmade for MTB with different technical parts like drops and "stone sections".  
The course goes mainly in the forest but some areas have been curtailed to facilitate for the spectators to follow the riders.
